

The Rooster's Crow

April 2017

Hymn VU 161 Welcome Happy Morning

Scripture: Mark 8:31 and Acts 4:33

Reflection:

Easter seems to jump around from late March to May, but whenever, it always seems to bring with it something special. A feeling not around the rest of the year. Is it because we personally hear the rooster crow more so at Easter but can ignore the sound throughout the rest of the year? Or is it something more? Perhaps a feeling that there is hope for the future with sadness on Good Friday but renewed hope and gladness on Sunday? Each and every year “He is Risen” sends a new message that there really is a Jesus looking out for us!

Discussion:

Does that noisy rooster ring in your head, or do you just hear happiness for what Easter stands for?

Hymn VU 155 Jesus Christ is Risen Today

Prayer:

Lord, you know it is pretty easy for us to hear, but ignore that rooster. At times we have all heard and ignored but on Easter Sunday we hear something different. We hear the joyous peeling of bells, the grateful prayers and laughter of children, all because He Lives. Thanks you God. Amen.
